To whom it may concern:

Re: Appointment of REACH “Only Representative” by Cyclo Industries Inc.

This letter serves as formal notification that Cyclo Industries Inc., (a “non-EU manufacturer”) has appointed **Compliance Services International (“CSI”)** as its “Only Representative”, as defined under Article 8 of the REACH Regulation - (EC) No 1907/2006.

Only Representative Name **Compliance Services International (CSI)**

Based on export tonnage, Cyclo Industries Inc. has identified the substances it exports to the European Economic Area (EEA) that are subject to the provisions of REACH. The Only Representative agreement in place between Cyclo Industries Inc. and CSI therefore applies to all of the identified substances:

As a result of the appointment of CSI as the Only Representative, under the REACH Regulation your status will change from “importer” to “downstream user,” so that you will be exempt from the registration obligations associated with the substances contained in imports from Cyclo Industries Inc.

(This change of status to downstream user pertains only to your supply chain from Cyclo Industries Inc., i.e., to the metric tonnage you import from Cyclo Industries Inc. If you also import an identified substance from other non- EU suppliers, you must register such tonnage separately with ECHA or have the non-EU supplier appoint an Only Representative.

Signed:
